

## Instruction for Poster Presentations- Gather.town

Poster session in Gather.town requires a lengthy preparation on our side. But as far as you are concerned what you have to do is quite simple. You have to prepare your poster in a usual way as power point presentation.

Please observe the following the rules

- 1- The size of power point presentation is (16:9), i.e landscape format. The minimum width is 1000px (26 cm). This is just a minimum, you can choose higher values maintaining (16:9) format ( see below).
- 2- Having prepared your poster, you have to save this document in three formats
  - 1) Save it as PDF format as is
  - 2) Save it as JPG format with width 26 cm and height 17cm ( it should **not be more than 3 MB in size** and also no transparent background).
  - 3) Save it as JPG format width 13.5 cm and height 8 cm.

Please name these files using *Paper No–Your name and surname-* by adding the number *1, 2 or 3* at the end

- 3- Send all three files to either [mesc.poster@gmail.com](mailto:mesc.poster@gmail.com) or [secretariat@mesc-is.org](mailto:secretariat@mesc-is.org)

Please observe the deadline as requested from you via the e-mail.

Thank you

*Note: All these are quite straightforward. But if you would like to know how all these three files are used during the poster presentation in gather.town you may consult various documents at the internet; e.g.*
